Visit us on Line at [www.Reliable-Equip.com](http://www.Reliable-Equip.com)

Due to ever changing regulations and self imposed safety guidelines, Reliable Equipment does not attempt to instruct our customers in the proper timing and maintenance of safety products.

Each user must adhere to all local, state, and federal regulations.

Each user is responsible for the implementation of Safe Working Practices.

The label below has been created at the request of the user, as a guide, in an effort to establish a testing and certification program

|                              |              |   |
|------------------------------|--------------|---|
| <b>Tested On (Date):</b>     | <u>06-16</u> | <b>Inspect Safety Equipment<br/>Before Each Use.</b>              |
| <b>Recertification Date:</b> | <u>05-18</u> | <b>If any part shows wear or<br/>damage, remove from service.</b> |

Actual Size

|                              |              |   |
|------------------------------|--------------|---|
| <b>Tested On (Date):</b>     | <u>06-16</u> | <b>Inspect Ground Assembly<br/>Before Each Use.</b>               |
| <b>Recertification Date:</b> | <u>05-18</u> | <b>If any part shows wear or<br/>damage, remove from service.</b> |

Please review the label above for appropriate wording and recertification interval. Upon your approval, Reliable will use this label on future repair and recertification orders as requested.
