

RELIABLE EQUIPMENT & SERVICE CO., INC.

Breather valve allows easy conversion for operation with single acting systems.

Suspension eye allows use for aerial operations

Model	REL-100SDA
Output	100 ton
Weight	95 lbs.
Dimensions	8.25"W x 15"H
Ram Stroke	.98" travel
Oil Capacity	.66 pint

REL-100SDA

100 TON SINGLE/DOUBLE ACTING HYDRAULIC CRIMPING TOOL

The **REL-100SDA** 100 ton press has been designed to compress sleeves and lugs on ACSR and ACAR full tension, transmission and substation connections.

Operable from the **REL-1915** electric/hydraulic pump, **REL-10-I** intensifier, or any 3/4 hp, 10,000 psi hydraulic power source with an adequate reservoir.

Accepts most 100 ton shell type dies currently used with Alcoa, Burndy, and other 100 ton presses. Double acting feature eliminates the possibility of jamming or hanging up.

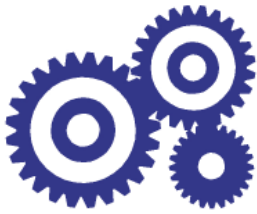

FEATURES:

- Removable die cap for easy connector positioning.
- 3/8" Screw-type couplers
- Breather valve allows conversion to single acting
- Suspension eye included
- Steel case included
- Long Life Expectancy (tested to 50,000 cycles)

REL-60SA & 60SAT 60 Ton Single Acting Hydraulic Compression Tool

The REL-60 Series 60 ton press is designed to compress sleeves and lugs on ACSR and ACAR transmission and distribution cables. Operable from any 10,000 psi pumping source, these tools are portable for easy positioning. Two models available: The REL-60SA is the perfect compliment to any single acting system. The REL-60SAT features light weight Titanium construction. **25% lighter than steel!** Accepts most shell type dies currently used with Alcoa, and Burndy 60 ton presses.

FEATURES:

- Lightweight
- Removable die cap for easy connector positioning.
- 3/8" Screw-type couplers
- Tool Stand & Steel Case included

Model	60SA / 60SAT
Output	60 ton @ 10,000 psi
Weight	47 lbs. / 36 lbs.
Dimensions	5"W x 17"H
Ram Stroke	1.5" travel
Oil Capacity	303 cc
